FprEN 17092-4 (version 2019/03) Protective garments for motorcycle riders – Part 4: Class A garments – Requirements

Intended use: Motorcycling: preventive use – correct fitting and positioning of the inner protections are essential

EU Type Examination Certificate

Date: 2019/10/08

n. **584194102/OE**

Validity:
2024/10/07

Size range:	Women's sizes: from S to XL (full indications on the Information Notice)
Technical File:	DC-11022
Test report:	RCT n° 3821914/E
Functions and performance levels:	<p>The garment offers limited protection against mechanical risks arising from impact and abrasion in case of a fall while participating in motorcycling activities: CE-Certified incorporated impact protectors provide strengthened protection.</p> <p>This PPE item has reached the following performance: Class A (*) = light-duty protective garments: the third highest level of protection. EN 17092-4 garments are expected to have the least ergonomic and weight penalties. Protective function is linked to the correct fit of the garment – also the inner impact protectors must be kept in their place: this falls within the responsibility of the user.</p> <p>(*) = The applied Technical Draft document currently provides different levels of protection for garments including protectors/shells: from class AAA (highest level of performance) to class AA (medium level) to class A (lower level); - class B for garments not including protectors / shells = just abrasion protection; - class C for Impact protector ensemble garments.</p>

Marking:

printed on stitched labels and displaying the following information:

- **CE Marking;**
- name/trademark and web contact of the Manufacturer;
- item designation;
- pictogram to indicate the intended use (motorcycling) + class of protection achieved + reference to the Technical Draft;
- pictogram instructing to read the User Manual;
- on extra labels: size indication, material composition, care/washing symbols and instructions;
- additional info: nr. of the Notified Body, "Made in...", warnings, internal codes.

NOTE: the Technical File contains a more detailed description of the PPE (material, method of assembly, photographs or drawings), performance data, safety functions and level of protection, elements of conformity to the basic and supplementary requirements. The Technical File is integral part of the present Certification, which has to be kept available by the applicant to be forwarded - upon request - to the entitled person (supervising body, Controlling Officer).
